

NOW IS THE MOMENT!

A group of people from Montgat, representing all ages and local neighbourhoods', have joined together to create a candidacy for the next local elections to be held on 26th May 2019.

We are concerned with the significant increase in construction and lack of adequate urban planning in Montgat. We believe this will cause significant disruption, will negatively impact the identity of the local area and quality of life for our people. This is why we want to develop a sustainable and controlled expansion, with a forward looking project, with guarantees for necessary public equipment and improvement to living conditions for everyone. People and public spaces are the centre of this project.

There is another way of managing our city; with a more transparent, efficient, participatory and closer to local people governance.

“Som de Montgat” is not another candidacy; it is totally different. Differences are very important. We are not a political party which dictates what people are to do or not do. We introduce ourselves as a **Plural, Transversal, local political party**, where all the people are equal and decisions are taken in meetings.

WAKE UP MONTGAT!
